

Salone 2010 High style, innovative designs and materials, defined the Knoll introductions for the home and workplace, launched at Salone in Milano this year. With a view on the outdoors, the Spark Series, Stones by Maya Lin and Vignelli tables, brought color and excitement to Piazza Bertarelli. The award-winning Generation chair raised the bar for innovation and sustainability; new lounge furniture from Jehs+Laub and Joseph Paul D'Urso, designs informed by Knoll's mid-century modern pioneers, were lauded by architects and designers.

New Products

Jehs+Laub Lounge Chair and Ottoman combine a sleek profile with a sculptural interior, offering seating that is both refined and approachable.

Knoll Happenings

Harry Bertoia's iconic works on display at the Chostro de L'Assassino.

Knoll: A Modernist Universe by Brian Lutz, is published by Rizzoli.

2010 Introductions on view in Paris at Knoll, 266 Boulevard Saint-Germain on June 17.

Jehs+Laub Collection

Renowned for their modern classic furniture and lighting as well as their innovative interior projects, most notably Suite 606 at the Ice Hotel in Sweden and the worldwide concept for Mercedes Benz® showrooms, Markus Jehs and Jürgen Laub live and work in Stuttgart, Germany. Their strikingly handsome Lounge Chair and Ottoman are available with a distinctive polished aluminum pedestal or an architectural, dynamic wire base, offering functionality and sophistication to enhance any space. Contact your sales representative for product availability and cutsheets.

Girard Table

Alexander Girard's work defined a new kind of 'opulent modernism', a look synonymous with 1950's aesthetic. Designed in 1945 for Knoll, the Girard table reflects clean lines, organic shapes and Girard's view that "art is only art when it is synonymous with living." Available in oak, walnut and ebonized veneer, the Girard table is a modern classic that will easily fit into any residential or contract application. The Girard Table is now available for order entry. List price starts at €730.

The Spark Series A perfect balance of form and function, the chairs are comfortable, stackable, high-performance, waterproof, UV-protected, lightweight, durable, and easy-to clean – suitable for both indoors and out. An optional seat pad, ganging device, and dolly enhance Spark’s versatility for home, corporate, healthcare, education, restaurant and hospitality applications. The Spark™ Series can be seen and experienced in person at Knoll showrooms in London, Paris, Milan, Brussels, and throughout the United States. The Spark Series is available for immediate order entry. Contact your sales representative for brochure and cutsheets.

Maya Lin Stones™

Maya Lin came to international prominence with her award-winning design for the Vietnam Memorial in Washington, D.C. Her work blurs the boundaries between architecture and art, demonstrates a passion for topography, and a fondness for elliptical shapes and subtle curves. Maya Lin’s Adult and Child Stones for Knoll are available in a range of colors and consist of 100% recycled polyethylene. Durable, easy to clean, the Stones are ideal for occasional seating at home, in corporate and hospitality spaces — indoors and out. Maya Lin Child and Adult Stones are available for immediate order entry. Contact your sales representative for a cutsheet.

D'Urso Lounge

Acclaimed for his 'minimalist style' private residences and showrooms, Joseph Paul D'Urso's designs reflect his preference for objects that look more 'engineered' than styled. With his namesake Lounge Chair, D'Urso offers modern style that is both comfortable and versatile. With a polished chrome base, adjustable seat height and a generous scale, the D'Urso Swivel Lounge is ideal for home, corporate, and hospitality environments. The D'Urso Swivel Lounge is available for immediate order entry. Contact your sales representative for a cutsheet.

Knoll Featured Fabric: Suerte

Suerte, 100% Cotton Duck Fabric is ideal for residential environments. This essential Knoll fabric, applicable on KnollStudio products, is available in a range of 30 basic and trendy colors. Suerte is also a handsome compliment to fabrics with bold patterns. Please contact your sales representative for details and samples.

Spinneybeck Cervo Leather

The ideal upholstery for KnollStudio Classics, Cervo (deer in Italian) evokes the rich luxurious supple quality of deer skin. This naked leather is chromium tanned and aniline dyed. The unique tannage and the clarity and depth of the aniline dyes provide a distinct beauty that enhances the premium leather's natural characteristics. Cervo is thicker than the other Spinneybeck naked leathers; specialized milling enhances the leather's character resulting in a soft pebble grain texture unmatched by any other leather in its class. To see a sample of any of Cervo's 13 colors, consult your sales representative.

Spotlight on the Outdoors

The Spark Series, Maya Lin Stones, Bertoia Collection, and Vignelli Paperclip Table with a glass top are engineered for outdoor environments. Both the Spark Series and Maya Lin Stones are waterproof, UV-protected, lightweight, durable, and easy-to-clean. Harry Bertoia's iconic seating and Vignelli's classic Paperclip table, in Rilsan white or black — a durable, adhesive fused nylon-dipped finish that is scratch, chip and chemical resistant, redefine the outdoors. Stainless steel connections ensure lasting durability. Bertoia seat pads upholstered in Cordura nylon or vinyl can also be used outdoors. The Paperclip table with elegant glass top is the preferred option for outdoor dining.

Knoll Happenings

2010 Introductions on view in Paris at Knoll, 266 Boulevard Saint-Germain

Furniture by Jehs+Laub, Joseph Paul D'Urso, Don Chadwick and more will be presented to architects and designers on June 17 at the Knoll Showroom in Paris.

Harry Bertoia 1915-1978

As the culmination of the unparalleled and captivating exhibit of Harry Bertoia's career as a sculptor and furniture designer at the Museum of Pordenone, the iconic works were transported to Chiostrò de L'Assassino, via Amedei 8, near the Knoll showroom during the Salone days. "Decisi che una sedia non poteva bastare" (I decided that a chair was not enough) was the title of the Friuli-based exhibition held from 23rd May to 21st September 2009.

Knoll: A Modernist Universe

Author Brian Lutz creates a comprehensive survey of the seventy year history of Knoll and the Company's influence on modern design. Through his in-depth study of the Knoll archives and personal interviews with principal players, including Florence Knoll Bassett and even the craftsmen who worked in the factory, the reader will gain insight into the evolution of modern furniture – from the iconic Barcelona chair to the Generation Office chair, Knoll's latest introduction. Published in English by Rizzoli, *Knoll: A Modernist Universe* is now available in bookstores across Europe.
